

# Keep Kids Safe Around Medicine

## Store Medicine Safely

- Put all medicines away and out of sight, even your own.
- Think about places where kids get into medicine.
- Think about products you might not think about as medicines.
- Think about visitors' medicine. Guests in your home may not be thinking about medicine they brought with them.
- Close your medicine caps tightly after every use.
- Put medicine out of reach after EVERY use.

## Give Medicine Safely

- Use the dosing tool that comes with the medicine.
- Read the label and know what's in the medicine.
- Talk to caregivers about medicine safety.

## Get Rid of Medicine Safely

- Clean out your medicine cabinet.

## Know the Poison Help Number

- Put the Poison Help Number into your home and cell phones: 1-800-222-1222.
